Over the past 12 months we have added 120 fresh and new articles, videos, and related content.

Some of the knowledge products are those we've developed, drawing on the expertise of our growing Research Advisory Network (<https://nationalcne.org/about/ran/>).

over 50 offerings were curated content contributed by our partners (<https://nationalcne.org/partner-content/>).

And we've shared 15 Webinar Events and 23 Videos. We also offer the newest thinking on crisis management, nonprofit resilience, and COVID-19 relief.

Our market reach toward an audience of nonprofit executives, their fiscal staff and board members, policy and grant makers, but also researchers, faculty and their students in academic and professional development settings, is trending upward.

We're pleased that our membership base has grown to over 100 individuals and organizations. Meanwhile, we've seen **25,500** visits to our website (an average of 1,500 visits per month); 180 followers on social media (LinkedIn and Facebook); and 402 subscribers in our MailChimp distribution list; all just over the past year alone.

You may recall some of our signature knowledge products:
